5. Uninstallation.....	3

## 1. Introducing Frequently Bought Together

Frequently Bought Together displays bought together or related products in a neat, comfortable and modern way. With this extension, customers are encouraged to place additional products in their carts, increasing your cross-sells and total purchase amounts.

## 2. Installation

1. Extract Extension.
2. Using your FTP client upload app, js, skin directories to your store root. This would not overwrite any files, just add the extension to its folder.
3. That's all.

## 3. Configuration

Configuration options are available in administration panel: **System --> Configuration --> OnlibeBizSoft --> Bought Together.**

1. General Settings
  - Enable: Enable/Disable output on front-end
  - License Key: Extension license key
  - Display products from orders: Show frequently products from orders if "Yes" is selected. Otherwise, related product will be displayed.
  - Product Display Limit: The limitation to be shown on product page.

General	
Enable	Yes [WEBSITE]
License Key	[STORE VIEW]
Display products from orders	No [WEBSITE] <small>▲ Show frequently products from orders if "Yes" is selected. Otherwise, related product will be displayed.</small>
Product Display Limit	3 [STORE VIEW] <small>▲ Value "0" means no limit</small>

## 4. Implement

1. Display Frequently Bought Together in Product Page.
  - Open the `/<your_locale>/<your_skin>/template/catalog/product/view.phtml` file which has `your_skin` as the name of your current store skin and `your_locale` as your current locale. If you haven't ever changed your store's skin or locale, use the `default` value for `your_skin` and `default` value for `your_locale`.

Find the following string:

```
<div class="product-collateral">
```

and insert this code after it:

```
<?php echo $this->getChildHtml('alsobought') ?>
```

## 5. Uninstallation

1. If you require to disable the extension without removing it completely, go to System->Configuration->Advanced->Advanced->Disable Modules Output and disable the module OnlineBiz\_Alsobought. Also, the extension can be switched off following steps without deleting the files of the extension.
  - Login to your FTP, navigate to app/etc/modules/
  - Open the file OnlineBiz\_Alsobought.xml and change the following line:  
From  
`<active>true</active>`  
To  
`<active>>false</active>`
  - Clear the cache under var/cache.

If you are unable to access the extension settings in the backend, please logout and login once and try again.

But if installation requires some customization based on theme/layout then we will charge you for extra work. Hope you can understand this.

Sincerely, OnlineBizSoft Team
