

Unlimited Catalog Scroll User Guide

Version: 2.1.2

Extension: <http://store.onlinebizsoft.com/unlimited-catalog-scroll.html>

Support: support@onlinebizsoft.com

Table Of Contents

1. Introducing Unlimited Catalog Scroll	2
2. Installation.....	2
3. Configuration.....	3
4. Uninstallation.....	3

1. Introducing Unlimited Catalog Scroll

With Unlimited Catalog Scroll, your clients no need to seek the 'next page' button on catalog products list page, just scroll down the mouse wheel and the next page will appear. And, to return to previous pages - just scroll up without clicking the 'previous page' button as usually.

2. Installation

1. Extract Extension.
2. Using your FTP client upload app, js, skin directories to your store root. This would not overwrite any files, just add the extension to its folder.
3. That's all.

3. Configuration

Configuration options are available in administration panel: **System --> Configuration --> OnlibeBizSoft --> Catalog Unlimited Scroll.**

1. General Settings
 - Enable: Enable/Disable output on front-end
 - License Key: Extension license key
 - Show Back To Top Button: Show "Back To Top" button at the bottom of the page.
 - Back To Top Button Image: Upload your "Back To Top" button image.
 - Catalog List Template: This template will be used in case loosing session by fulpage cache or vanish cache modules.

The screenshot shows the 'General Settings' configuration panel. It contains the following fields and options:

Setting	Value	Action
Enabled	Yes	[STORE VIEW]
License Key	[Empty text box]	[STORE VIEW]
Show Back To Top Button	Yes	[STORE VIEW]
Back To Top Button Image	[Browse...] No file selected.	[STORE VIEW]
Catalog List Template	catalog/product/list.phtml	[STORE VIEW]

Below the Catalog List Template field, there is a warning:
▲ This template will be used in case loosing session by fulpage cache or vanish cache modules

4. Uninstallation

1. If you require to disable the extension without removing it completely, go to System->Configuration->Advanced->Advanced->Disable Modules Output and disable the module OnlineBiz_Catalogscroll. Also, the extension can be switched off following steps without deleting the files of the extension.
 - Login to your FTP, navigate to app/etc/modules/
 - Open the file OnlineBiz_Catalogscroll.xml and change the following line:
From
`<active>>true</active>`
To
`<active>>false</active>`
 - Clear the cache under var/cache.

If you are unable to access the extension settings in the backend, please logout and login once and try again.

But if installation requires some customization based on theme/layout then we will charge you for extra work.

Hope you can understand this.

Sincerely, OnlineBizSoft Team
