1. Introducing Exploded Menu

Exploded Menu will help your magento store menu converted into user friendly exploded menu. You can also

customize CSS easily to achieve rounded corner exploded navigation..It is fully open source and easy to use.

2. Installation

1. Extract Extension.
2. Using your FTP client upload app, js, skin directories to your store root. This would not overwrite any files, just add the extension to its folder.
3. That's all.

3. Configuration

Configuration options are available in administration panel: **System --> Configuration --> OnlibeBizSoft --> Exploded Menu.**

1. General Settings

- Enable: Enable/Disable output on front-end
- License Key: Extension license key
- Visible menu depth: Specify the level of subcategory to be displayed.
- Replace spaces with non-breaking spaces: Insert space ** **; instead of a space in a name of a menu item.
- Menu Font Size: Font size of menu item.
- Menu Font Weight: Font weight of menu item.
